"Next stop Mars," said Malcolm Allison. Not quite ... but it's been a hell of a ride. A superb book and a must-read for any City fan.' - DANIEL TAYLOR, senior writer, The Athletic 'A thorough and delicious retelling of perhaps not the most successful of European journeys, but definitely the most interesting, liberally sprinkled with the sort of humour that only a City fan could write. Fantastic.' - DAVID MOONEY, BBC Radio 5 Live 'A book that brilliantly explodes the myth that City have no history or pedigree in Europe. Curtis doesn't just detail the club's adventures on the continent from the late 1960s, he also captures their essence with accounts from fans who were there.' - SIMON MULLOCK, chief football writer, Sunday Mirror 'Simon Curtis is a fine journalist with an extensive knowledge of the club - he is also a seasoned veteran of many European away trips. This book is essential reading for all City fans.' - RIC TURNER, founder and curator, Bluemoon forum 'If you think that not winning the Champions League means there's no story to tell then think again. This book provides the story of every City game in Europe - a record that stretches back 54 years. Read the twists and turns of City's fortunes written in an engaging style with quotes from fans, players and broadcasters who were there.' - GARY JAMES, football historian 'From Down the Kippax Steps to the latest rapture at the Etihad, Simon's gift for articulating how it's felt to support this undeniably unconventional football club has been unmatched. In times of comedy, tragedy, feast or famine, his writing has defined what it's meant to be City like no other.' - MARK BOOTH, head of content, New York City Football Club THE ESSENTIAL NEW HISTORY OF MANCHESTER CITY'S EUROPEAN TRIUMPHS AND TRAGEDIES As one of the first English sides to taste glory in Europe, lifting the Cup Winners' Cup in 1970, City looked set for life among the continent's elite. But as their domestic fortunes went from bad to worse to absolute calamity, the wilderness returned. Avid City fan and respected journalist Simon Curtis dusts off the details of some truly intoxicating away days. Filled with tales of the club's travelling support and the evocative accounts of the journalists who saw the team of the Seventies, Curtis tells the story of a club steeped in history, defiantly refusing to bow to pomp and ceremony as it goes about lifting the ultimate prize. After a spectacular rebuild and having achieved all there is to achieve on the domestic stage, including a record-breaking 100-point season in 2017-18, City's deep-pocketed owners have their sights firmly set on European glory once more. Yet for all their recent success at home, they are anything but welcome guests at Europe's top table.

My dog once took a bullet that was intended for me. A bullet that ripped through his chest, narrowly missing his heart, and exited through his shoulder blade, effectively shattering it. This left him unconscious on the floor of my home. Amazingly, this bullet did not kill him. Ten years ago I adopted Blue as a present to myself after I broke up with my boyfriend one hot, early summer night with the windows open and the neighborhood listening. The next morning I went straight to the pound in Bushwick, Brooklyn. Articles on buying your first dog tell you never to buy a dog on impulse. They want you to be prepared for this new member of your family, to understand the

responsibilities and challenges of owning a dog. Going to the pound because you need something in your life that's worth holding onto is rarely, if ever, mentioned. I asked the man at the pound to show me the biggest dogs they had. He showed me some seven-week-old Rottweiler-German shepherd puppies that he said would grow to be quite large. Then he showed me a six-month-old shepherd that would get pretty big. Then he showed me Blue, the largest dog they had. The man called him a Collie mix and he was stuffed into the biggest cage they had, but he didn't fit. He was as tall as a Great Dane but much skinnier, with the snout of a collie, the markings of a Siberian husky, the ears and tail of a shepherd and the body of a wolf, with one blue eye and one brown. Crouched in a sitting position, unable to lie down, unable to sit all the way up, he looked at me from between the bars, and I fell in love. "He's still underweight," the man in the blue scrubs told me as we looked at Blue. "I'll tell you, lady, he's pretty but he's skittish. He sheds, and I mean sheds. I don't think you want this dog." But I knew I wanted him. I knew I had to have him. He was the most beautiful thing I had ever seen. Blue cost me \$108. I brought him home, and we lived together for years. He was, for most of our relationship, my only companion. But when I first met Blue, a lifetime ago now, I had family and friends. I worked at a crappy coffeehouse. I was young and lost; I was normal. Back then, at the beginning of this story, before I'd ever seen a corpse, before Blue saved my life, before I felt what it was like to kill someone in cold blood, I was still Joy Humbolt. I'd never even heard the name Sydney Rye. P.S. The dog does not die. **Beware: If you can't handle a few f-bombs, you can't handle this series.**

Universal vehicular communication promises many improvements in terms of accident avoidance and mitigation, better utilization of roads and resources such as time and fuel, and new opportunities for infotainment applications. However, before widespread acceptance, vehicular communication must meet challenges comparable to the trouble and disbelief that accompanied the introduction of traffic lights back then. The first traffic light was installed in 1868 in London to signal railway, but only later, in 1912, was invented the first red-green electric traffic light. And roughly 50 years after the first traffic light, in 1920, the first four-way traffic signal comparable to our today's traffic lights was introduced. The introduction of traffic signals was necessary after automobiles soon became prevalent once the first car in history, actually a wooden motorcycle, was constructed in 1885. Soon, the scene became complicated, requiring the introduction of the "right-of-way" philosophy and later on the very first traffic light. In the same way the traffic light was a necessary mean to regulate the beginning of the automotive life and to protect drivers, passengers, as well as pedestrians and other inhabitants of the road infrastructure, vehicular communication is necessary to accommodate the further growth of traffic volume and to significantly reduce the number of accidents.

Categories covered include e-commerce, corporate image, direct marketing, self-promotion, and more. A colorful and revealing portrait of the rise of India's new billionaire class in a

radically unequal society India is the world's largest democracy, with more than one billion people and an economy expanding faster than China's. But the rewards of this growth have been far from evenly shared, and the country's top 1% now own nearly 60% of its wealth. In megacities like Mumbai, where half the population live in slums, the extraordinary riches of India's new dynasties echo the Vanderbilts and Rockefellers of America's Gilded Age, funneling profits from huge conglomerates into lifestyles of conspicuous consumption. James Crabtree's The Billionaire Raj takes readers on a personal journey to meet these reclusive billionaires, fugitive tycoons, and shadowy political power brokers. From the sky terrace of the world's most expensive home to impoverished villages and mass political rallies, Crabtree dramatizes the battle between crony capitalists and economic reformers, revealing a tense struggle between equality and privilege playing out against a combustible backdrop of aspiration, class, and caste. The Billionaire Raj is a vivid account of a divided society on the cusp of transformation—and a struggle that will shape not just India's future, but the world's.

The novel is set in the summer of 1998 in New York City. Beneath the surface of the city, gangs of vampires have been living, preying on the dregs of society--the homeless, destitute, prostitutes--no one cares about. A crew of thieves robs vampire families robs vampire gangs of their money and blood, playing the vampires off against one another. A job goes wrong and they mess with a vampire they never should have, the Albanian Kreshnik, who serves the dark Lord Rainford. Rainford's minions seek out and destroy Frank's crew one by one. Boone is the youngest and brashiest of the humans. He's a racist, a drug addict, given to violence and can't shoot to save his life. Boone evidences supernatural attributes, such as the ability to heal rapidly from seemingly devastating injuries. He's also occasionally shadowed by a specter he refers to as Stan that only he can see. Boone feels an attraction to Emanuela, a witch-like character who hunts vampires and other creatures like them with "the Sisterhood." The novel culminates in Boone's confrontation against Rainford's army in an decrepit warehouse.
