The British National Bibliography Harris Michigan Industrial Directory The surge of interest in the REpresentational State Transfer (REST) architectural style, the Semantic Web, and Linked Data has resulted in the development of innovative, flexible, and powerful systems that embrace one or more of these compatible technologies. However, most developers, architects, Information Technology managers, and platform owners have only been exposed to the basics of resource-oriented architectures. This book is an attempt to catalog and elucidate several reusable solutions that have been seen in the wild in the now increasingly

familiar "patterns book" style. These are not turn key implementations, but rather, useful strategies for solving certain problems in the development of modern, resource-oriented systems, both on the public Web and within an organization's firewalls. Rethinking Prestige Branding

What makes someone covet a Kelly bag? Why are Cirque Du Soleil or Grey Goose so successful despite breaking all the conventions of their categories? What does Gucci's approach to marketing have in common with Nespresso's? And why do some people pay a relative fortune for Renova toilet paper or Aesop detergent even though they hardly ever 'advertise' and seem to have none of the 'functional performance advantages' conventional marketers would seek to demonstrate? Prestige brand experts JP Kuehlwein and Wolfgang Schaefer have dedicated themselves to studying what drives the success of prestige brands. Rethinking Prestige Branding collects their insights.

Uncovering the secrets of why and how some brands are created more equal than others, Rethinking Prestige Branding includes over 100 case studies from Apple and Abercrombie & Fitch to Tate Modern and Tesla. Rather than re-telling brand success stories or re-hashing long-standing marketing principles, it takes

readers on a colourful journey behind the scenes of today's marketing pros. This book will fascinate marketing professional just as much as those who are simply curious as to how premium brands tick.
