The Great American Icon! - Special Launch Price

American car companies are continually striving to innovate changes in how we see, operate, and make connections with cars. The classic car market taps into a simpler time and invokes a feeling of nostalgia.

Mustangs are undoubtedly among the most popular classic cars—they were a hit right off the production line, and 56 years later, they still rank among the top-selling cars and are recognized as a household name. Ford's first pony car remains one of the longest-running sports car nameplates in the United States, second only to the Chevy Corvette. The Mustang has set records time and again with its sales, building on its reputation as the classic car that made its way to American homes. These milestones helped perpetuate the nostalgic standing that draws people to the pony car. The Mustang has left an imprint on the hearts and minds of many Americans, whether it was a memorable first car experience, the project car that brought people together, or memories created while cruising, parking, or doing burn-outs. It appeals to consumers for other reasons too. At its inception, the Mustang brought a race-care level of performance and speed to the average American. While suburbia was enjoying upward mobility, car lovers were introduced to an affordable sports car that was also easy to work on. Those defining characteristics—accessible, fast, and affordable—continue to shape Ford's marketing strategy to this day. The Mustang's performance is wrapped up in the ideals of American individualism. A variety of appealing and performance-enhancing trim options from the factory, plus an endless supply of aftermarket parts, ensure that you can modify and customize to your heart's content. Whether it's the performance you are after, sentiment, or just an affordable sports car, the Ford Mustang surely fits the bill. The array of Mustangs produced in its lifetime via creative collaborations, advertising promotions, fan-club upgrades, and even Ford's own special projects are too numerous to detail in a single publication. Anyone, from the most fervent enthusiasts to Camaro owners can appreciate this fun collection of Mustang morsels. Or if your intent is to impress your next date or occupy time on the porcelain throne, we hope you enjoy this trivia book! Click "Buy Now" To Get Your Copy Today!

By the time the 1969 model year rolled around, it was well established that muscle cars were fast and plentiful. Every manufacturer had at least one corner of the showroom where the "go fast" guys could congregate and discuss the merits and time slips of the latest performance offerings. Competition being what it was, the manufacturers were looking for ways to entice

potential buyers to choose their product over ever-increasing offerings from the competition. Some manufacturers tried to accomplish this with affordable prices, some tried fancy marketing schemes, and some created a look and a style that screamed "performance" even when standing still. The 1969 Mach I was Ford's attempt to create a package and a style to match the performance of its recently released and very potent 428-ci Cobra Jet engine package. Displacing the still-available but more conservative GT trim, the Mach I included unique and innovative graphics and mechanical innovations including shaker hood scoops, dual racing mirrors, deluxe interiors, competition suspension, dual chrome exhaust tips, and blacked-out hoods. The result was a wildly popular model that sold more than 70,000 units, compared to slightly more than 5,000 GT models for the year. Each volume in the In Detail Series provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers.

Come along on Mustang's wild ride to automotive success. In the early 1960s, Lee Iacocca - then director of the Ford division at Ford Motor Company - convinced Henry Ford II to produce a sporty four-seat car aimed at the emerging youth market. That car, essentially a reconfigured and re-skinned Falcon economy car, became the Ford Mustang, and it changed the automotive world like no other car before or since. In Ford Mustang:

America's Original Pony Car, acclaimed Mustang writer

Donald Farr celebrates this unbroken lineage of muscle. He chronicles the car's phenomenal first-year sales, the new pony car category it pioneered, and subsequent models that include the Mustang GT, Shelby GT350, Shelby GT500, Super Cobra Jet, Boss 302, and Boss 429 - all part of a line of American performance cars that continues to this day. Created in

cooperation with Ford Motor Company and featuring some 400 photos from its historic and media archives, Ford Mustang is a must on the bookshelf of any muscle car or Ford aficionado.

was created just for California. The story of how the California-Crazy car culture in the 1960s prompted the marketing of Mustang's first factory-produced special edition is described in incredible detail - from the inspiration of Shelby's "Little Red" coupe to the development by Ford Design to become 4,118 GT/California Specials. The story continues with the marketing plan by J.Walter Thompson and California's Ford Dealer's Association to bring this Mustang to market in the spring of 1968. A detailed account of the GT/CS variant, the "High Country Special," sold in the Denver sales district is also included. Detailed production statistics, rare factory photos, authentication, options, accessories, specific part descriptions and comprehensive Concours restoration information are covered, along with the complete stories of the Shelby prototype coupes "Little Red," and the EXP-500 "Green Hornet." A separate chapter is devoted to the development, prototypes and production of the 2007-09 and 2011 GT/CS, and a complete GT/CS Owner Registry of 1,300 cars with photos rounds out the volume. Each book is beautifully bound, signed and numbered. A very special, limited edition for Mustang collectors!
