Callum Sinclair is a former RCMP officer, now turned rare antiques dealer, living in Frederick, Maryland, with dual Canadian/US citizenship. His best friend, Daniel Fiedler, is a former US Army Ranger, now turned security consultant, who left the service after a reporting a war crime committed by members of his unit in Iraq. One hot June morning in 2019, two powerful bombs destroy a Planned Parenthood building in Bethesda, Maryland, with enormous loss of life. Caroline Henderson, wife of a prominent Anti-Choice Republican Senator, is one of the victims. The two friends happen to be on the scene when the bombing occurs. Callum Sinclair's stepfather, a powerful behind-the-scenes mover and shaker in

the Republican Party, hires the two friends to quietly look into the incident, and determine why Henderson might have been at the scene. What follows is a look at the deepening fracture in the political landscape in America, the rise of White Power Terrorism, the continuing attack on women's rights, and the nature of loyalty and friendship.

Case Studies in Crisis Communication: International Perspectives on Hits and Misses was created to fill the gap for a much-needed textbook in case studies in crisis communication from international perspectives. The events of September 11, 2001, other major world crises, and the ongoing macroeconomic challenges of financial institutions, justify the need for this book. While existing textbooks on the subject focus on U.S. corporate cases, they may not appeal equally to students and practitioners in other countries, hence the need to

analyze cases from the United States and from other world regions. The variety and the international focus of the cases, be they environmental, health or management successes or failures, makes this book more appealing to a wider audience. These cases examine socio-cultural issues associated with responding to a variety of crises.

Based on tests conducted by Consumers Union, this guide rates new cars based on performance, handling, comfort, convenience, reliability, and fuel economy, and includes advice on options and safety statistics. The way far too many people at far too many companies think about and execute marketing was born in an era when suppliers-the companies generating products and services-were in the catbird seat. That world is long dead, and customers now occupy that position. In this relentlessly globalizing economy, we live in a world of oversupply and underdemand, with too many suppliers chasing too few customers, offering more goods and services than the market can absorb. Noel Capon set out to discover what differentiates people who know how to succeed in this changed world-people who are able to create customers for the products and services of their business. The Marketing Mavens is based on a four-year-long research program that spanned twenty-five industries, identifying long-term winners and what they do differently. Put simply, Marketing Mavens place customers at the center of their business and make marketing everyone's job. Using a wide variety of intriguing, in-depth examples, from ESPN to the Mayo Clinic, Dr. Capon shows how the

mavens create customers. How by placing the sports fan at the center of its business, ESPN creates programming that meets the needs of fans that were never given a second thought by the networks; or how physicians at the Mayo Clinic, being both technical experts and skilled at creating a patient-centric ambience, motivate people to pay the extra travel and lodging expenses not covered by insurance. Marketing Mavens, though a rare breed, can be found up and down an organization-from the CEO to chief marketing officers to business unit managers. Noel Capon has talked to mavens from across the global economy and brings forth their uncanny insights behind the five imperatives of the true Marketing Maven:

- Picking markets that matter
- Selecting segments to dominate and finding the sweet spot in that segment
- Designing the offer to create customer value and secure differential advantage
- Integrating to serve the customer
- And measuring what matters

Noel Capon in The Marketing Mavens redefines marketing, moving it from a focus on selling and communication into a discipline that guides all the key decisions of a business. By seeing marketing as everyone's business-not the domain of a few specialists-you'll get your business in step with the way the world really works . . . and start creating customers. Next year's profits don't depend on next year's numbers but on next year's customers. The Marketing Mavens points the way to those customers, profits, and an increased stock price.
