In this uplifting and practical book, written in collaboration with his biographer, Austen Ivereigh, the preeminent spiritual leader explains why we must—and how we can—make the world safer, fairer, and healthier for all people now. In the COVID crisis, the beloved shepherd of over one billion Catholics saw the cruelty and inequity of our society exposed more vividly than ever before. He also saw, in the resilience, generosity, and creativity of so many people, the means to rescue our society, our economy, and our planet. In direct, powerful prose, Pope Francis urges us not to let the pain be in vain. He begins *Let Us Dream* by exploring what this crisis can teach us about how to handle upheaval of any kind in our own lives and the world at large. With unprecedented candor, he reveals how three crises in his own life changed him dramatically for the better. By its very nature, he shows, crisis presents us with a choice: we make a grievous error if we try to return to some pre-crisis state. But if we have the courage to change, we can emerge from the crisis better than before. Francis then offers a brilliant, scathing critique of the systems and ideologies that conspired to produce the current crisis, from a global economy obsessed with profit and heedless of the people and environment it harms, to politicians who foment their people's fear and use it to increase their own power at their people's expense. He reminds us that Christians' first duty is to serve others, especially the poor and the marginalized, just as Jesus did. Finally, the Pope offers an inspiring and actionable blueprint for building a better world for all humanity by putting the poor and the planet at the heart of new thinking. For this plan, he draws not only on sacred sources, but on the latest findings from renowned scientists, economists, activists, and other thinkers. Yet rather than simply offer prescriptions, he shows how ordinary people acting together despite their differences can discover unforeseen possibilities. Along the way, he offers dozens of wise and surprising observations on the value of unconventional thinking, on why we must dramatically increase women's leadership in the Church and throughout society, on what he learned while scouring the streets of Buenos Aires with garbage-pickers, and much more. *Let Us Dream* is an epiphany, a call to arms, and a pleasure to read. It is Pope Francis at his most personal, profound and passionate. With this book and with open hearts, we can change the world.

The Stories of Paul Bowles

Something in the Water

Erin is a documentary filmmaker on the brink of a professional breakthrough, Mark a handsome investment banker with big plans. Passionately in love, they embark on a dream honeymoon to the tropical island of Bora Bora, where they enjoy the sun, the sand, and each other. Then, while scuba diving in the crystal blue sea, they find something in the water.... Suddenly the newlyweds must make a dangerous choice: to speak out or to protect their secret. After all, if no one else knows, who would be hurt? Their decision will trigger a devastating chain of events....

On the terrace of an elaborate hilltop apartment overlooking a Central American capital, four people sit making polite conversation. The American couple -- an elderly physician and his young wife -- are tourists. Their host, whom they have just met, is a young man of striking good looks and charm. The girl, his mistress, is very young and very beautiful. Sitting there, watching the sunset, the Slades seem to be enjoying the sort of fortunate chance encounter that travelers cherish. But amid the civilities and small talk, the host's casual remark to the American woman proves prophetic: "It's not exactly what you think." Masterfully -- with the poetic control that has always characterized his work -- Paul Bowles leads the reader beneath the surface of hospitality and luxury into a tortuous maze of human relationships and shifting moods, until what seems at first a merely casual encounter is seen to be one rooted in viciousness and horror.

At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.

Why Violence Has Declined

Without Stopping

Betrayed

The short fiction of American literary cult figure Paul Bowles is marked by a unique, delicately spare style, and a dark, rich, exotic mood, by turns chilling, ironic, and wry—possessing a symmetry between beauty and terror that is haunting and ultimately moral. In "Pastor Dowe at Tecaté," a Protestant missionary is sent to a faraway place where his God has no power. In "Call at Corazón," an American husband abandons his alcoholic wife on their honeymoon in a South American jungle. In "Allal," a boy's drug-induced metamorphosis into a deadly serpent leads to his violent death. Here also are some of Bowles's most famous works, including "The Delicate Prey," a grimly satisfying tale of vengeance, and "A Distant Episode," which Tennessee Williams proclaimed "a

masterpiece."

Set in Fez, Morocco, during that country's 1954 nationalist uprising, *The Spider's House* is perhaps Paul Bowles's most beautifully subtle novel, richly descriptive of its setting and uncompromising in its characterizations. Exploring once again the dilemma of the outsider in an alien society, and the gap in understanding between cultures—recurrent themes of Paul Bowles's writings—*The Spider's House* is dramatic, brutally honest, and shockingly relevant to today's political situation in the Middle East and elsewhere.

A gripping story of a father and son who have traveled together along the tragic road of addiction. Read about how the son's heroin habit affected his entire family. Learn how to deal with addiction in yourself and in a loved one. Be inspired by Divine intervention that served as guideposts along this treacherous journey. Become enlightened by the Eternal Truths of a faith in God that led to a most surprising outcome. Come, join Patrick as he makes his journey from darkness into the light.

This is a frank, compassionate book written to those who contemplate suicide as a way out of their situations. The author issues an invitation to life, helping people accept the imperfections of their lives, and opening eyes to the possibilities of love.

When You Can't Let Go

Let it Come Down. Paul Bowles

The Clutter Book

In *Let It Come Down*, Paul Bowles plots the doomed trajectory of Nelson Dyar, a New York bank teller who comes to Tangier in search of a different life and ends up giving in to his darkest impulses.

Rich in descriptions of the corruption and decadence of the International Zone in the last days before Moroccan independence, Bowles's second novel is an alternately comic and horrific account of a descent into nihilism.

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

When a bedraggled stranger turned up on the doorstep of Jason Harper's comfortable New England home, it takes him some time to accept that it is his brother who had disappeared over thirty years before on a bombing mission over Vietnam. Why had he not come home earlier? Where had he been? Why had he not told his own family that he had survived? Before Roy can begin to explain what he has gone through they are interrupted by a pair of men who seem intent on removing them both - and Jason's wife and child. Within the space of half an hour Jason's well-regulated, ordinary life is destroyed and his loyalty to his lost brother forces him to take his family on the run as he battles with the fact that the American government had 'hidden' hundreds of MIAs. Now the two brothers have the knowledge to expose this outrage, but first they have to prevent the other survivors from being summarily executed, and a very professional organisation is determined that they will achieve neither aim. In more than forty essays and articles that range from Paris to Ceylon, Thailand to Kenya, and, of course, Morocco, the great twen-tieth-century American writer encapsulates his long and full life, and sheds light on his brilliant fiction. Whether he's recalling the cold-water artists' flats of Paris's Left Bank or the sun-worshipping eccentrics of Tangier, Paul Bowles imbues every piece with a deep intelligence and the acute perspective of his rich experience of the world. Woven throughout are photographs from the renowned author's private archive, which place him, his wife, the writer Jane Bowles, and their many friends and compatriots in the landscapes his essays bring so vividly to life. Dr. Jason Corey has it all - good looks, a great career, money and the love of a beautiful woman. His life would be perfect except for one thing, the young Seattle ER physician is not who he thinks he is. Unexplainable events emerge in his life sending him on a quest

for the truth of who he is, but no one could imagine the nature of his being. Jason wins his battle for truth and survival, but an unseen evil force isn't done with him. The triple twist ending leaves the reader awestruck and wondering what now? There have been countless books and TV shows about emergency medicine, but none of them reveal what *The Second Son* does in this mind twisting suspense novel. It is filled with plot twists and surprises certain to keep the reader turning pages.

A work of unparalleled candor and splendid beauty, *The Lyrics* celebrates the creative life and the musical genius of Paul McCartney through 154 of his most meaningful songs. From his early Liverpool days, through the historic decade of The Beatles, to Wings and his long solo career, *The Lyrics* pairs the definitive texts of 154 Paul McCartney songs with first-person commentaries on his life and music. Spanning two alphabetically arranged volumes, these commentaries reveal how the songs came to be and the people who inspired them: his devoted parents, Mary and Jim; his songwriting partner, John Lennon; his "Golden Earth Girl," Linda Eastman; his wife, Nancy McCartney; and even Queen Elizabeth, among many others. Here are the origins of "Let It Be," "Lovely Rita," "Yesterday," and "Mull of Kintyre," as well as McCartney's literary influences, including Shakespeare, Lewis Carroll, and Alan Durband, his high-school English teacher. With images from McCartney's personal archives—handwritten texts, paintings, and photographs, hundreds previously unseen—*The Lyrics*, spanning sixty-four years, becomes the definitive literary and visual record of one of the greatest songwriters of all time.

Presents a controversial history of violence which argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.

Paul Bowles, the acclaimed author of *The Sheltering Sky*, offers moving, powerful, subtle, and fascinating insights into his life, his writing, and his world.

NATIONAL BESTSELLER • WINNER OF THE PULITZER

PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (*San Francisco Chronicle*). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

NEW YORK TIMES BESTSELLER • A modern American epic set against the panorama of contemporary politics and culture—a hurtling, page-turning mystery that is equal parts *The Great Gatsby* and *The Bonfire of the Vanities* **ONE OF THE BEST BOOKS OF THE YEAR:** NPR, PBS, Harper's Bazaar, Esquire, Financial Times, The Times of India On the day of Barack Obama's inauguration, an enigmatic billionaire from foreign shores takes up residence in the architectural jewel of "the Gardens," a cloistered community in New York's Greenwich Village. The neighborhood is a bubble within a bubble, and the residents are immediately intrigued by the eccentric newcomer and his family. Along with his improbable name, untraceable accent, and unmistakable whiff of danger, Nero Golden has brought along his three adult sons: agoraphobic, alcoholic Petya, a brilliant recluse with a tortured mind; Apu, the flamboyant artist, sexually and spiritually omnivorous, famous on twenty blocks; and D, at twenty-two the baby of the family, harboring an explosive secret even from himself. There is no mother, no wife; at least not until Vasilisa, a sleek Russian expat, snags the septuagenarian Nero, becoming the queen to his king—a queen in want of an heir. Our guide to the Golden's world is their neighbor René, an ambitious young filmmaker. Researching a movie about the Golden's, he ingratiates himself into their household. Seduced by their mystique, he is inevitably implicated in their quarrels, their infidelities, and, indeed, their crimes. Meanwhile, like a bad joke, a certain comic-book villain embarks upon a crass presidential run that turns New York upside-down. Set against the strange and exuberant backdrop of current American culture and politics, *The Golden House* also marks Salman Rushdie's triumphant and exciting return to realism. The result is a modern epic of love and terrorism, loss and reinvention—a powerful, timely story

told with the daring and panache that make Salman Rushdie a force of light in our dark new age.

A beautiful 65th anniversary paperback edition of the landmark literary work by acclaimed author Paul Bowles. In this classic work of psychological terror, Paul Bowles examines the ways in which Americans apprehend an alien culture—and the ways in which their incomprehension destroys them. The story of three American travelers adrift in the cities and deserts of North Africa after World War II, *The Sheltering Sky* is at once merciless and heartbreaking in its compassion. It etches the limits of human reason and intelligence—perhaps even the limits of human life—when they touch the unfathomable emptiness and impassive cruelty of the desert.

Underneath Everything is a seductive, gorgeously written debut about two girls bound by an obsessive and toxic friendship, perfect for fans of Lauren Oliver and Courtney Summers. Mattie shouldn't be at the bonfire. She should be finding new maps for her collection, hanging out with Kris, and steering clear of almost everyone else, especially Jolene. But when Mattie runs into Hudson and gets a glimpse of what could have been, she decides to take it all back: the boyfriend, the friends, the life she was supposed to live. Problem is, Mattie can't figure out where Jolene's life ends and hers begins. Because there's something Mattie hasn't told anyone: She walked away from Jolene over a year ago, but she never really left.

In "a spectacular display of intelligence and feeling" (*Publishers Weekly*, starred review), Paul Yoon's collection of short stories ranges throughout the world—from the Hudson Valley to the Russian Far East—across periods of time after World War II, hailed as a "genuine work of art...tough and elegant and true" (*The Boston Globe*). In *The Mountain*, award-winning and acclaimed author Paul Yoon reveals his subtle, ethereal, and strikingly observant style with six thematically linked stories, taking place across several continents and time periods and populated with characters who are connected by their traumatic pasts, newly vagrant lives, and quests for solace in their futures. Though they exist in their own distinct worlds (from a sanatorium in the Hudson Valley to an inn in the Russian far east) they are united by the struggle to reconcile their traumatic pasts in the wake of violence, big and small, spiritual and corporeal. A morphine-addicted nurse wanders through the decimated French countryside in search of purpose; a dissatisfied wife sporadically takes a train across Spain with a much younger man in the wake of a building explosion; a lost young woman emigrates from Korea to Shanghai, where she aimlessly works in a camera sweat shop, trying fruitlessly to outrun the ghosts of her past. In this "fantastic collection" (*Los Angeles Times*), "Paul Yoon's dazzling use of wordplay, pacing, and the quiet authenticity of his characters...makes him one of the most evocative writers working today" (*Kirkus Reviews*, starred review). With *The Mountain*, "Yoon proves himself a literary alchemist, transforming tragedy into beauty with deft reminders of our universal connections...Joining such luminaries as Jhumpa Lahiri, Junot Díaz,

and Alice Munro, Yoon has undoubtedly earned membership in the exclusive coterie of today's finest writers of the short form" (*Library Journal*, starred review).

The Most Comprehensive Plan Ever Proposed to Reverse Global Warming

Let It Come Down, with its title from Macbeth, tells the story of Dyar, a New York bank clerk who throws up his secure, humdrum job to find a reality abroad with which to identify himself, and his macabre experiences in the inferno of Tangiers as he gives in to his darkest impulses. Rich in descriptions of the corruption and decadence of the International Zone in the last days before Moroccan independence, Bowles's second novel is an alternately comic and horrific account of a descent into nihilism.

Twelve-year-old Paul, who lives in the shadow of his football hero brother Erik, fights for the right to play soccer despite his near blindness and slowly begins to remember the incident that damaged his eyesight. An ALA Best Book for Young Adults. Reprint. Jr Lib Guild.

A novel from the pen of Paul Bowles, the author of such works as *The Sheltering Sky* and *Up Above the World*. Nelson Dyar, a man without aims or values, reaches North Africa after giving up his job as a New York bank clerk and is drawn into the unfamiliar world of Tangier's expatriate community.

• **New York Times bestseller** • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world "At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope." —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* "There's been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom." —David Roberts, Vox "This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook." —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.
