**NATIONAL BESTSELLER • The Pulitzer Prize–winning author of The Sixth Extinction returns to humanity’s transformative impact on the environment, now asking: After doing so much damage, can we change nature, this time to save it? RECOMMENDED BY PRESIDENT OBAMA AND BILL GATES • SHORTLISTED FOR THE WAINWRIGHT PRIZE FOR WRITING • ONE OF THE TEN BEST BOOKS OF THE YEAR: The Washington Post • ONE OF THE BEST BOOKS OF THE YEAR: Time, Esquire, Smithsonian Magazine, Vulture, Publishers Weekly, Kirkus Reviews, Library Journal • “Beautifully and insistently, Kolbert shows us that it is time to think radically about the ways we manage the environment.”—Helen Macdonald, The New York Times That man should have dominion “over all the earth, and over every creeping thing that creepeth upon the earth” is a prophecy that has hardened into fact. So pervasive are human impacts on the planet that it’s said we live in a new geological epoch: the Anthropocene. In Under a White Sky, Elizabeth Kolbert takes a hard look at the new world we are creating. Along the way, she meets biologists who are trying to preserve the world’s rarest fish, which lives in a single tiny pool in the middle of the Mojave; engineers who are turning carbon emissions to stone in Iceland; Australian researchers who are trying to develop a “super coral” that can survive on a hotter globe; and physicists who are contemplating shooting tiny diamonds into the stratosphere to cool the earth. One way to look at human civilization, says Kolbert, is as a ten-thousand-year exercise in defying nature. In The Sixth Extinction, she explored the ways in which our capacity for destruction has reshaped the natural world. Now she examines how the very sorts of interventions that have imperiled our planet are increasingly seen as the only hope for its salvation. By turns inspiring, terrifying, and darkly comic, Under a White Sky is an utterly original examination of the challenges we face.**

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers. In *Braiding Sweetgrass*, Kimmerer brings these two lenses of knowledge together to take us on “a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise” (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

The bestselling author of *UnSelfie* offers 7 teachable traits that will safeguard our kids for the future. We think we have to push our kids to do more, achieve more, BE more. But we're modeling the wrong traits—like rule-following and caution—and research shows it's NOT working. This kind of “Striver” mindset isn't just making kids unhappier, says Dr. Michele Borba...it's actually the opposite of what it takes to thrive in the uncertain world ahead.

Thrivers are different: they flourish in our fast-paced, digital-driven, often uncertain world. Why? Through her in-depth research, Dr. Borba discovered that the difference comes down not to grades or test scores, but to seven character traits that set Thrivers apart—confidence, empathy, self-control, integrity, curiosity, perseverance, and optimism. The even better news: these traits can be taught to children at any age...in fact, parents and educators must do so. In *Thrivers*, Dr. Borba offers practical, actionable ways to develop these traits in children from preschool

through high school, showing how to teach kids how to cope today so they can thrive tomorrow. The author traces the boyhood enthusiasm for rockets that eventually led to a career at NASA, describing how he built model rockets in the family garage in West Virginia, inspired by the launch of the Soviet satellite Sputnik. THE NEW YORK TIMES BESTSELLER In her enthralling debut, Gilly Macmillan explores a mother's search for her missing son, weaving a taut psychological thriller as gripping and skillful as *The Girl on the Train* and *The Guilty One*. In a heartbeat, everything changes... Rachel Jenner is walking in a Bristol park with her eight-year-old son, Ben, when he asks if he can run ahead. It's an ordinary request on an ordinary Sunday afternoon, and Rachel has no reason to worry—until Ben vanishes. Police are called, search parties go out, and Rachel, already insecure after her recent divorce, feels herself coming undone. As hours and then days pass without a sign of Ben, everyone who knew him is called into question, from Rachel's newly married ex-husband to her mother-of-the-year sister. Inevitably, media attention focuses on Rachel too, and the public's attitude toward her begins to shift from sympathy to suspicion. As she desperately pieces together the threadbare clues, Rachel realizes that nothing is quite as she imagined it to be, not even her own judgment. And the greatest dangers may lie not in the anonymous strangers of every parent's nightmares, but behind the familiar smiles of those she trusts the most. Where is Ben? The clock is ticking... The story begins in a centuries old fortification which has been slated for closure by the Government. The site cleanup is almost completed until the discovery of a Civil War relic grinds the operation to a halt. Not even the most advanced technology nor the knowledge to utilize it could ever prepare them for what waits inside. They have no idea as to the true horror they have discovered, until it is too late. Once set free, the evil has no intentions of going away quietly and threatens to consume everything in its path. Will the creatures that are unwittingly released from their long hibernation be the end of humanity or will the Fortress serve those who serve it, once again.

After a family tragedy orphans her, Rachel, the daughter of a Danish mother and a black G.I., moves into her grandmother's mostly black community in the 1980s, where she must swallow her grief and confront her identity as a biracial woman in a world that wants to see her as either black or white. A first novel. Reprint.

Homer Hickam won the praise of critics and the devotion of readers with his first two memoirs set in the hardscrabble mining town of Coalwood, West Virginia. The New York Times crowned his first book, the #1 national bestseller *October Sky*, "an eloquent evocation ... a thoroughly charming memoir." And *People* called *The Coalwood Way*, Hickam's follow-up to *October Sky*, "a heartwarmer ... truly beautiful and haunting." Now Homer Hickam continues his extraordinary story with *Sky of Stone*, dazzling us with exquisite storytelling as he takes us back to that remarkable small town we first came to know and love in *October Sky*. In the summer of '61, Homer "Sonny"

Hickam, a year of college behind him, was dreaming of sandy beaches and rocket ships. But before Sonny could reach the seaside fixer-upper where his mother was spending the summer, a telephone call sends him back to the place he thought he had escaped, the gritty coal-mining town of Coalwood, West Virginia. There, Sonny's father, the mine's superintendent, has been accused of negligence in a man's death — and the townspeople are in conflict over the future of the town. Sonny's mother, Elsie, has commanded her son to spend the summer in Coalwood to support his father. But within hours, Sonny realizes two things: His father, always cool and distant with his second son, doesn't want him there ... and his parents' marriage has begun to unravel. For Sonny, so begins a summer of discovery — of love, betrayal, and most of all, of a brooding mystery that threatens to destroy his father and his town. Cut off from his college funds by his father, Sonny finds himself doing the unimaginable: taking a job as a "track-laying man," the toughest in the mine. Moving out to live among the miners, Sonny is soon dazzled by a beautiful older woman who wants to be the mine's first female engineer. And as the days of summer grow shorter, Sonny finds himself changing in surprising ways, taking the first real steps toward adulthood. But it's a journey he can make only by peering into the mysterious heart of Coalwood itself, and most of all, by unraveling the story of a man's death and a father's secret. In *Sky of Stone*, Homer Hickam looks down the corridors of his past with love, humor, and forgiveness, brilliantly evoking a close-knit community where everyone knows everything about each other's lives — except the things that matter most. *Sky of Stone* is a memoir that reads like a novel, mesmerizing us with rich language, narrative drive, and sheer storytelling genius.

It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a

palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind:

the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive. A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

"What would happen if Adolf Hitler woke up in modern-day Berlin? In a bestselling satirical novel, he'd end up a TV comedy star . . . [Look Who's Back] has unsurprisingly sparked debate in a country that has

grappled for decades with Hitler's unconscionable legacy." -Time Timur Vermes' record-breaking bestseller, *Look Who's Back*, is a satirical novel that imagines what would happen if Hitler reawakened in present-day Germany. The book was a massive success in Germany, selling more than 1.5 million copies. Janet Maslin of *The New York Times* called *Look Who's Back* "desperately funny . . . an ingenious comedy of errors." In the novel, Adolf Hitler wakes up in 2011 from a 66-year sleep in his subterranean Berlin bunker to find the Germany he knew entirely changed: Internet-driven media spreads ideas in minutes and fumes celebrity obsession; immigration has produced multicultural neighborhoods bringing together people of varying race, ethnicity, and religion; and the most powerful person in government is a woman. Hitler is immediately recognized . . . as an impersonator of uncommon skill. The public assumes the fulminating leader of the Nazi party is a performer who is always in character, and soon his inevitable viral appeal begets YouTube stardom, begets television celebrity on a Turkish-born comedian's show. His bigoted rants are mistaken for a theatrical satire-exposing prejudice and misrepresentation-and his media success emboldens Hitler to start his own political party, and set the country he finds a shambles back to rights. With daring and dark humor, *Look Who's Back* skewers the absurdity and depravity of the cult of personality in modern media culture.

It's fall, 1959, and Homer "Sonny" Hickam and his fellow Rocket Boys are in their senior year at Big Creek High, launching handbuilt rockets that soar thousands of feet into the West Virginia sky. But in a season traditionally marked by celebrations of the spirit, Coalwood finds itself at a painful crossroads. The strains can be felt within the Hickam home, where a beleaguered Homer Sr. is resorting to a daring but risky plan to keep the mine alive, and his wife Elsie is feeling increasingly isolated from both her family and the townspeople. And Sonny, despite a blossoming relationship with a local girl whose dreams are as big as his, finds his own mood repeatedly darkened by an unexplainable sadness. Eager to rally the town's spirits and make her son's final holiday season at home a memorable one, Elsie enlists Sonny and the Rocket Boys' aid in making the Coalwood Christmas Pageant the best ever. But trouble at the mine and the arrival of a beautiful young outsider threaten to tear the community apart when it most needs to come together. And when disaster strikes at home, and Elsie's beloved pet squirrel escapes under his watch, Sonny realizes that helping his town and redeeming himself in his mother's eyes may be a bigger-and more rewarding-challenge than he has ever faced. The result is pure storytelling magic- a tale of small-town parades and big-hearted preachers, the timeless love of families and unforgettable adventures of boyhood friends-that could only come from the man who brought the world Rocket Boys

" This landmark new book gives us an invaluable perspective on the Supreme Court in democracy's hour of maximum danger. " —Jon Meacham The gripping story of the year that transformed the Supreme Court into the court of Donald Trump and Amy Coney Barrett, from the Pulitzer Prize – winning law columnist for *The New York Times* At the end of the Supreme Court's 2019 – 20 term, the center was holding. The predictions that the court would move irrevocably to the far right hadn't come to pass, as the justices released surprisingly moderate opinions in cases involving abortion rights, LGBTQ rights, and how local governments could respond to the pandemic, all shepherded by Chief Justice John Roberts. By the end of the 2020 – 21 term, much about the nation's highest court has changed. The right-wing supermajority had completed its first term on the bench, cementing Donald Trump's legacy on American jurisprudence. This is the story of that term. From the death of Ruth Bader Ginsburg to the rise of Amy Coney Barrett, from the pandemic to the election, from the Trump campaign's legal challenges to the ongoing debate about the role of religion in American life, the Supreme Court has been at the center of many of the biggest events of the year. Throughout *Justice on the Brink*, legendary journalist Linda Greenhouse, who won a Pulitzer Prize for her Supreme Court coverage, gives us unique insight into a court under stress, providing the context and brilliant

analysis readers of her work in The New York Times have come to expect. Ultimately, Greenhouse asks a fundamental question relevant to all Americans: Is this still John Roberts' s Supreme Court, or does it now belong to Donald Trump?

It was a standard-issue celebrity crush. It was 2006, Brokeback Mountain was inspiring critical acclaim and late night talk show jokes alike and there was Becky Heineke, thinking Jake Gyllenhaal was looking pretty good. She was twenty-four, two years out of college, and had nothing better to do which is how she wound up joining a girl she'd never met to write a blog called Jake Watch. Over the blog's nineteen-month run, there were movie premieres, a movie script, a legitimately stupid Internet rumor (accidental), one highly unsuccessful presidential campaign, a lost pugle, and a T-shirt business that may or may not have violated international copyright laws. But Jake Watch also aged its two writers more than its life span might suggest. While countless books have been written about celebrities, blogs, and the impact of the Internet on our changing culture, there hasn't, until now, been a book that exemplifies their influence on the first generation to grow up obsessed with all three. *Im Stalking Jake!* is a memoir unique to the age in which it was written, a comedy about the drama of growing up and reaching out in the era of Internet addiction and celebrity infatuation.

In Amanda Skenandore' s provocative and profoundly moving debut, set in the tragic intersection between white and Native American culture, a young girl learns about friendship, betrayal, and the sacrifices made in the name of belonging. On a quiet Philadelphia morning in 1906, a newspaper headline catapults Alma Mitchell back to her past. A federal agent is dead, and the murder suspect is Alma' s childhood friend, Harry Muskrat. Harry—or Asku, as Alma knew him—was the most promising student at the “ savage-taming ” boarding school run by her father, where Alma was the only white pupil. Created in the wake of the Indian Wars, the Stover School was intended to assimilate the children of neighboring reservations. Instead, it robbed them of everything they' d known—language, customs, even their names—and left a heartbreaking legacy in its wake. The bright, courageous boy Alma knew could never have murdered anyone. But she barely recognizes the man Asku has become, cold and embittered at being an outcast in the white world and a ghost in his own. Her lawyer husband, Stewart, reluctantly agrees to help defend Asku for Alma' s sake. To do so, Alma must revisit the painful secrets she has kept hidden from everyone—especially Stewart. Told in compelling narratives that alternate between Alma' s childhood and her present life, *Between Earth and Sky* is a haunting and complex story of love and loss, as a quest for justice becomes a journey toward understanding and, ultimately, atonement.
