In this all-new addition to the *People of Wisconsin* series, author Susan Mikos traces the history of Polish immigrants as they settled in America ' s northern heartland. The second largest immigrant population after Germans, Poles put down roots in all corners of the state, from the industrial center of Milwaukee to the farmland around Stevens Point, in the Cutover, and beyond. In each locale, they brought with them a hunger to own land, a willingness to work hard, and a passion for building churches. Included is a first person memoir from Polish immigrant Maciej Wojda, translated for the first time into English, and historical photographs of Polish settlements around our state.

Foundations of Art Therapy: Theory and Applications is an essential and comprehensive introduction to the field of art therapy that blends relevant psychological and neuroscience research, theories, and concepts and infuses cultural diversity throughout each chapter. The text includes full color photos, informative charts, and case examples and is divided into four parts beginning with the basics of art therapy knowledge and concluding with professional practices in art therapy. The fundamentals of art therapy section includes coverage of art therapy founders, art materials, multicultural perspectives, intersections with neuroscience, and research methods. An overview and in-depth explorations of different theoretical approaches to the practice of art therapy are covered in the second part of the book. A bio-psycho-social approach integrates current research on art therapy with specific populations (children, mental health, older adults, and trauma).

The book concludes with art therapy professional practices in group concepts, community-based art therapy, and developing a career in the field. Each chapter contains chapter objectives, practical applications, ethical considerations, reflection questions, experiential exercises, and a list of terms. The unique, practical, and interdisciplinary approach of this text provides a solid base for understanding the field of art therapy and is well suited for use in undergraduate art therapy courses. This book will appeal to those who want an introduction to the field ' s theories, research, and practice and those seeking a comprehensive

Paper Panda's Guide to Papercutting

Briefly discusses the history of paper cutting and traditional styles from different countries, describes basic techniques, and includes patterns and instructions for paper cutting projects

Papercutting is an ancient, elegant art that dates almost as far back as the creation of paper itself. In today's multicultural world, papercutting embraces any number of themes, designs, and images. It is an all-inclusive art that requires few tools and minimal materials. All one needs is instruction and inspiration, both of which are found in good measure in The Art of Papercutting. The book includes more than 20 projects that feature a range of sizes, subject matters, and techniques. Every project features step-by-step photographs and numerous helpful hints.

"The present book is a synthetic outline of the most important fields of folk plastic art in Poland represented as far as possible in their historical development. The authors regard folk art as one of the essential elements of the traditional culture of Polish peasants. The first chapters of the book describe the fundamental framework of the existence of village inhabitants, namely spatial systems of settlement, types of peasants' farmsteads, the shape of the dwelling and its interior. Gradually, we learn more about the furnishings of the house and objects of everyday use, with the whole richness of their forms and decoration. Beginning with wooden equipment -- carved and painted -- through ceramic artifacts and specimens of artistic blacksmithery, the authors pass to country-made textiles and to costume, distinguishing their most important types. Further parts of the book are devoted to art which expresses directly the spiritual culture of Polish folk, namely to such fields as sculpture, painting and graphic art, and to the creative work related to native, annual rites."--Publisher's description.

This book has Paper Panda's very distinctive stamp on it and begins with a design section which takes the reader through a very personal account of what inspires her, how she works, and how Paper Panda came about. The techniques involved in papercutting are fairly simple and easy to explain, and this is covered through step-by-step demos. There is a design section, taking readers through the design process itself and including numerous examples of Louise's papercut designs. Starting with the themes and subjects that inspire her, it explains how she creates finished artwork suitable for papercutting, followed by how to make the template itself, and how to use the papercut to make cards, framed pictures, and so on. The aim of this section will be not only to provide readers with an insight into Paper Panda's creative world, but also to inform and inspire people to design papercuts for themselves. There are 20 papercut projects in the book; five from Paper Panda herself and five each from three of Paper Panda's design colleagues (Sarah Trumbauer, Louise Dyer and Suzy Taylor - all accomplished papercutters with online presences). Each project will consist of a template, which will be reproduced full-size at the back of the book, and a finished paper cut, together with some step-by-step instructions. The designs will be simple enough for beginners, though attractive and interesting enough to inspire more advanced paper cutters. The projects themselves will include cards, decorations, and mounted and framed pictures to hang on the wall, all using a variety of colored and patterned papers to show off Paper Panda and friends' distinctive and beautiful designs to their best advantage.

Every city has its unique and valuable identity, this identity is revealed through its physical and visual form, it is seen through the eyes of its residents and users. The city develops over time, and its identity evolves with it. Reflecting the rapid and constant changes the city is subjected to, Architecture and Arts, is the embodiment of the cultural, historical, and economical characteristics of the city. This conference was dedicated to the investigation of the different new approaches developed in Architecture and Contemporary arts. It has focused on the basis of urban life and identities. This volume provides discussions on the examples and tendencies in dealing with urban identities as well as the transformation of cities and urban cultures mentioned in terms of their form, identity, and their current art. Contemporary art, when subjected to experiments, continues to be produced in various directions, to be consumed and to put forward new ideas. Art continuously renews itself, from new materials to different means of communication, from interactive works to computer games, from new approaches to perceptual paradigms and problems of city and nature of the millennium. This is an Open Access ebook, and can be found on www.taylorfrancis.com.

Paper artist and teacher Helen Hiebert compiles a one-of-kind collection of 40 unique projects, each using just one sheet of paper. Combining decorative paper techniques like marbling, stamping, and stenciling with dimensional techniques like origami, cutting, folding, quilling, stretching, weaving, and pop-ups, The Art of Papercraft offers a rich variety of projects that will delight crafters, artists, and designers alike, including paper votive lights, pop-up cards, folded paper gift boxes and envelopes, woven paper wall hangings, miniature one-sheet books, and much more. Every project is beautifully photographed and accompanied by step-by-step visual instructions. Guidance on selecting tools, materials, and paper selection; in-depth technique instructions; and profiles of contributing paper artists make this a rich and practical celebration of papercraft.
