The Council of the National Library, in arranging a one day seminar, an evening public lecture and an exhibition for 23 November, 1970 to honour the centenary of Henry Handel

Richardson's birth, decided also to publish a Henry Handel Richardson bibliography. This bibliography records not only printed works, but also a range of other source materials including the writer's original manuscripts held in the National Library. It has been compiled by Gay Howells who has also chosen the items for exhibition.

Company Law brings clarity and sophisticated analysis to the ever-changing landscape of company law. Hannigan captures the dynamism of the subject, places the material in context, highlights its relevance and topicality, and guides students through all the major areas studied at undergraduate level. The book is divided into five distinct sections covering corporate structure (including legal personality and constitutional issues), corporate governance (including directors' duties and liabilities), shareholders' rights and remedies (including powers of decision-making and shareholder engagement), corporate finance (including share and loan capital), and corporate rescue and restructuring (including liabilities arising

on insolvency). The author's accessible writing style and comprehensive approach to the subject makes this an idea textbook for students of company law.

The sixth edition of Oh ' s Intensive

Care Manual provides practical,

concise information on all aspects

of intensive care. Written in a clear

and accessible style and now for

the first time presented in colour

throughout, this book enables the

user to manage a patient in an ICU

setting effectively without recourse

to large text/reference works or

specialized monographs. This

thoroughly revised and updated

edition reflects the best and most

current practice from leading

centres in Australia, the UK and

Western Europe. Although primarily intended for the trainee and practitioner in intensive care, nurses and other allied health professionals will find that this is an invaluable tool in helping to deal with a broad spectrum of conditions encountered in the ICU. Represents a consensus of practice/standard of care in Australia/NZ, UK and Europe. Treatment guidelines are authoritative since they follow those that are Recommended/laid down by Professional societies. Comprehensive, covers all important areas of intensive care medicine. Provides a single resource that will cover everything that a user will need to know during the course of an ICU rotation. No need to refer to a larger textbook. Information on management and treatment of conditions is balanced by pathophysiological and pharmacological background. This is not just a "cook book" of procedures. It provides all of the essential information for candidates

wishing to pass professional examinations. Covers the paediatric as well as the adult patient in the ICU. Provides quick access and practical guidance for all clinical scenarios. Extensive list of key references most taken from the last three years. Helps trainees and practitioners prepare for case conference/presentations. Addition of colour throughout to highlight summary boxes, tables, charts and flow diagrams. Will make key information more accessible, easier and faster to retrieve. Line drawings extensively re-done in colour throughout. Will improve the user's understanding of the physiological processes under discussion. 5-10 Key points added at end of chapters. Will provide the user with a useful summary of the essential bottom line information. Pitfalls in treatment and management emphasized in each chapter. Provides the user with expert advice on practical issues that will be encountered on a day-to-

day basis in the ICU. Includes the most current classification and "clinical scoring schemes. Keeps the user abreast of the latest developments in diagnosis and management.

Introduction to Theomusicology
Catalog of reports, decisions and opinions, testimonies and speeches.

This book establishes theomusicology as a valid research approach to studying world religious, mythological, and ethical beliefs via music. Spencer divides his work into two parts. Part one, The Domain of Theomusicology, functions as a methodological exposition to Part Two. It defines the meaning of and suggested method for theomusicology and delineates the theomusicologist's best and broadest possible perspective on the world. Part Two, The Discourses of Theomusicology, illustrates how theomusicology combines dialogue with

different disciplines as well as a gamut of historical epochs and movements.
